Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

English Language Arts/Literacy Assessment - Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level exam on the English Language Arts/Literacy (ELA/L) section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment for the past three years.

Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Support will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

Courses, Curriculum, Instruction:

In addition to the traditional, required courses, Brookside offers a plethora of courses designed to expose children to different careers and ways of thinking. Over 80% of Brookside students are part of the music program (band, chorus or both). In addition, students get experience with art, computer science, and engineering. As 8th graders, Brookside students are encouraged to explore their interests and choose multiple courses from up to 12 electives to develop those interests and talents.

Sports and Athletics:

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Cross Country (Boys & Girls), Soccer (Boys & Girls), Softball (Girls), Track and Field - Spring (Boys & Girls), Volleyball (Girls), Wrestling (Boys & Girls)

A main tenant of Brookside is for students to be part of the community. Interscholastic sports provide a vehicle for this. Brookside's Cross Country Team is especially strong, and was the County Champion for the last two years, both boys and girls. Equally as impressive, the team has more than 60 participants and is one of our most popular activities. Other sports Brookside students can be part of include soccer, basketball, volleyball, baseball, softball and track.

Clubs and Activities:

Brookside offers close to twenty clubs designed to involve and engage students. We make a particular effort to offer a diversity of activities so that anyone can pursue an interest. Most of the programs are run by teachers, but we also offer some programs through ALEOOP, which is a community based organization. Most of the after school clubs are for middle school students. Some of our more popular clubs include A Capella, Robotics Club, Environmental Club and the school musical.

Before and After School Programs:

Allendale Enrichment Opportunity Program offers exciting and fun classes after school and a summer program for any child eligible for enrollment in the Allendale School District.

Staff and Professional Learning:

Brookside staff actively engages in continual learning. Teachers work in grade level teams and collaborate on self-selected topics designed to help enhance and improve student learning. The most recent initiatives have focused on integrated learning. Teams meet to collaboratively plan and review student work. Twice a month, teachers participate in after school PD and often work in departments to analyze student work and collaboratively plan.

Student Supports and Services:

Special Education Teachers and the Child Study Team work with each grade level team to provide support for students with special needs. Additional support is available for all students through extra help with regular classroom teachers, through focused groups with the school counselor, and with our Basic Skills and Study Skills classes. The school counselors and the principal also work with students frequently to insure positive academic achievement and characteristics.

Student Health and Wellness:

Brookside's Health and PE Program is notable in its innovative outlook on participation. While students still experience typical sports related PE classes, a big emphasis is on setting personal physical goals and developing lifelong habits for fitness and wellness. Our fitness room embodies this. Students participate in yoga, pilates, bicycle racing, and speed and fitness training. Our 8th Grade Program is primarily self-selected so that students can develop their skills and interests.

Parent and Community Involvement:

Brookside School parents and the Allendale Community have significant entree to, and participation within, the school. Students and parents have online access to calendars, grades and assignments to support each student's needs and interests. The PTO actively promotes events including field days, special nights and Book Fair. Finally, Allendale has a very dynamic Foundation that funds learning and projects, the most recent of which was the renovation of the Innovation Lab.

**Facilities:**

As with many public schools, Brookside has undergone several renovations and additions in its lifetime. Despite this, the entire building exudes a child centered yet academic atmosphere. Throughout the building, student murals and paintings line the hallways and classrooms are all equipped with Smartboards. Our infrastructure supports our 1 to 1 Chromebook initiative. Finally, our Learning Commons and STEM Room have both received critical acclaim for their aesthetics and function.

Other Information:

Brookside is a grade 4 to 8 school. From a community standpoint, the school functions very much as a single system and events such as our Holiday Sing-A-Long serve to reinforce the intimate nature of the school. Older students relish the opportunity to mentor and interact with the younger students. Our Peer Leader Program and our opening day events provide opportunities for older children to function in true leadership roles. Despite this small community feel, Brookside hosts a schedule that is directly designed for the developmental level of the child. Fourth graders follow a traditional elementary model, working with a single teacher for the majority of the day. Starting in fifth grade, however, we begin the slow transition towards maturity. Fifth graders work in homeroom groups, and rotate between teachers. This allows for the emotional support of a common homeroom group, but also gets the children used to multiple teachers. It also allows for a higher level of academic discourse in our classrooms. In sixth grade, students have their own wing in order to first experience a secondary model. Their experience is closely monitored by the teachers and staff. Seventh grade begins the transition towards high school level independence, and under the watchful eye of the staff, students are given more options to develop their own styles, interests, and processes. This culminates in eighth grade where students experience more choices and diversity in their program. This fully prepares students for their next academic experience.
