

Summer Assignment For Incoming Math 8 Students:

- Go to www.castlelearning.com and login using the user name. Your password has been reset. If you forgot your username, it is brook.##### where the number signs are the child's student number (same as your 4 or 5 digit lunch ID).
- To login, enter your username and leave the password blank and hit sign in. The program will prompt you to enter a new password.
- The assignments are similar in nature. The problems chosen for the assignment are based on topics that each student should understand and be able to solve before entering 8th grade math.
- You **MUST** complete one assignment.
- If you are not satisfied with your grade, you may complete one of the other two remaining assignments. The **BEST** score will be taken.
- It is strongly encouraged that each student completes a couple of problems each day. You do not need to complete the entire assignment in one sitting and/or one day.
- It is also encouraged, but not mandatory, that each student completes all three assignments for practice and to better prepare themselves for 8th grade.
- The assignment **MUST** be completed by the first day of school. It will be available on August 1st. This assignment will be the first grade on the first trimester.

GOOD LUCK and I look forward to meeting you in the fall!

Mrs. Touw
